PROJECTS

Web Project

Traveling_website

Designed and developed "BHARAT BHRAMAN," a full-stack web application promoting tourism in India. Leveraged front-end technologies (HTML5, CSS, JavaScript) to create an engaging user experience and integrated the Booking.com API to facilitate seamless ticket booking. Implemented dynamic date/night and month selection for booking flexibility.

ML project

Neo_virtual_assistant_ML

Developed a Python-based virtual assistant utilizing machine learning and natural language processing. Implemented functionality for diverse task execution and ongoing conversational interaction.

Data Analysis projects

Customer_Segmentation

Customer segmentation using clustering models to give products and services recommendations.

SQL_Digital-Music-Store_Analysis

Digital Music Store Data Analysis using SQL: Analyzed music store data using advanced SQL queries to identify gaps and increase the business growth.

Soft Skills:

- Communication Skill
- Teamwork and Collaboration
- Critical Thinking
- Leadership
